University of Oklahoma

1999 – 2002

Oklahoma, USA

Courses

- Information Management, Linear Regression, and Urban Development

B.S. in Computer, Science, Cum Laude

Michigan Technological University

1992 – 1996

Michigan, USA

Courses

- Software Engineering, Algorithms, Computer Graphics, Database, and Object-oriented Programming

SKILLS

MEAN Stack Web

JavaScript / ES6

HTML5

CSS3

Git / SCM

SASS

Ajax

Node.js

Express.js

SQL

MongoDB

Angular 5

Bootstrap

Materialize CSS

jQuery

API

Python

AWS / Cloud

MVC

Linux

C / C++

Flask

PERSONAL PROJECTS

Materialize CSS Front-End Portfolio Web Pages (2018)

- Wire-frame demonstration webpages for the latest Materialize CSS framework using Javascript, jQuery, HTML5, CSS3, SASS, and Git
- <http://woojay.github.io> for more

Mesh ISM-band RF Network (2018)

- Implemented low-cost autonomous wireless mesh network using low-cost ATMELE microcontrollers

Self-balancing Two-Wheeled Robot (2015)

- MEMS and Arduino controlled self-balancing robot using PID

Chef Mom Food! Blogging Platform (02/2018 – Present)

- A professional client blogging platform being built with Angular 5 and Firebase
- Deploying to DigitalOcean
- Using Angular components like ng-bootstrap and ng-scrollreveal
